7. Portable Flags

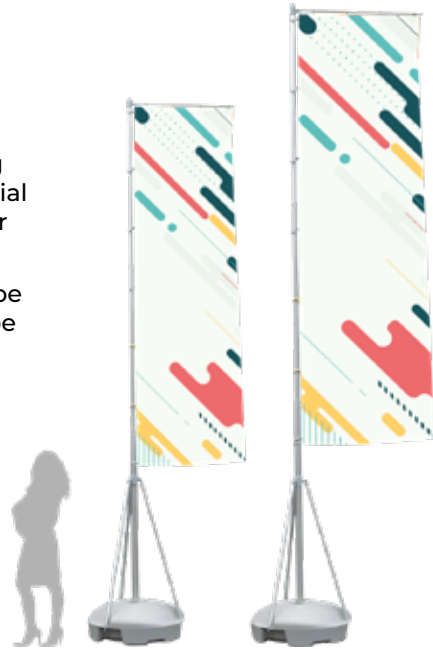

WIND DANCER

Flags shown at 100% scale

A large banner display system designed to “flow” with the wind.

Stylish and chic this flag comes with the option of either 115gsm flag material or 115gsm beach flag material (for high wind load) this is one of our most elegant flags or PVL banner.

The base of this unit is designed to be filled with water but sand can also be used if water is not sufficient.
